

Workshop Schedule for Group Encaustics

| | | |
|------------------|---------------------|--|
| Welcome | 9:00 am - 9:15 am | Arrive, have coffee and get to know one another. Turn on hot plates to melt the wax & mediums. Discussion of safety, type of supports to use, how to prepare them, temperatures and proper use of heating tools. |
| DEMO | 9:15 am - 10:15 am | We will begin by doing three 8X8 flat boards of techniques; Glue Textures, Embossing & Incising, and Collage. These will give you starter panels for finished paintings to use during the workshop. |
| Painting Session | 10:15 am - 12:15 pm | After a short break participants will begin working on applying wax and fusing after each layer and experimenting with the techniques. |

SAMPLE BOARDS. The sample boards, each with a different technique, will become spring-boards for you to finish a painting. You can continue adding wax and fusing each layer or adding different techniques. The idea is to start a painting without having a preconceived idea so that your intuition and free thought can move you through finishing a painting.
